What We are

We started our work in 2004 with the minimum Infrastructure available. Now V K Photocopier is constantly balancing superior service with competitive pricing. V K Photocopier has formulated an approach to customer service that provides customers with a high level of support. The wealth of service knowledge has been gained through good communication with the customers and their evolving needs. All the reputation and high acclaim that we have achieved in such little time can be attributed to the use of sophisticated machinery, skilled and experienced professionals.

V K Photocopier provides a technology friendly service, building upon the network integration of current ranges. Integration means that the machine provided is functioning with lesser cost and trouble free for a long time with all the needs of a customer fulfilled. Our Expertise and the product ranges allow us to tailor a machine to its intended environment. Through good service and competitive pricing, it always aspires to achieve the highest level of customer satisfaction.

WHY US?

We have built a competitive edge over our competitors in the industry because of the following reasons :

1. Qualitative Products
2. Customized Solutions
3. Wide Network Distribution
4. Timely Delivery
5. Cost Effective Products

OUR QUALITY

Adaptation of a fully integrated service management system enables us to monitor the quality of the response and allocate service calls quickly and efficiently. It acutely aware of need to be fully operational at all times and this system helps us to achieve that.

PRICING

We believe in long term association, and our pricing are very competitive. V K Photocopier provides a high quality leasing contract for the companies, which do not wish to increase their investment but need to have an active need of High end Printer and Photocopier services.
